MONTGOMERY, ALABAMA

OFFICE OF THE SECRETARY

## Resolution

### RECOGNIZING BAMA SOIL SERIES AS THE OFFICIAL STATE SOIL

By Senator Little

WHEREAS, the Professional Soil Classifiers Association of Alabama adopted a resolution at its 1996 annual meeting recommending the Bama Soil Series as the State Soil; and

WHEREAS, the association is composed of a group of soil classifiers representing the Alabama Cooperative Extension System, the Alabama Agricultural Experiment Station, the USDA-Natural Resources Conservation Service, the Alabama A&M University, private soil consultants, the Board of Registration for Professional Soil Classifiers, and the Alabama Department of Public Health; and

WHEREAS, in addition to the association, the following groups also recommend that the Bama Soil Series be so recognized: The Alabama Soil and Water Conservation Committee and the Alabama Association of Conservation Districts; and

WHEREAS, the Bama Soil Series, which includes fine-loamy, siliceous, subactive, and thermic Typic Paleudults occurs throughout the state; now therefore,

BE IT RESOLVED BY THE LEGISLATURE OF ALABAMA, BOTH HOUSES THEREOF CONCURRING, That the Bama Soil Series is hereby recognized as the official State Soil for Alabama.

I hereby certify that the above is a true, correct and accurate copy of Senate Joint Resolution No. 107, adopted by the Legislature of Alabama on April 22, 1997. LRS No. 97-2068.

A handwritten signature in cursive script, reading "McDowell Lee".
